Participants will experience going into hypnosis themselves as well as learning how to take someone else safely and easily in and out of hypnosis. You will also learn some NLP models for rapid change and some of the basic skills of Life Coaching. The day is a highly practical and fun way to learn and an ideal (low cost) taster if you are considering the other courses.

### Intensive One to One Training

A very small number of places, for each course, are available for those with time constraints or who wish to qualify through an intensive, one to one, trainer/student or micro-group route. The number of hours of attendance can be significantly reduced and the qualification attained in a considerably shorter timeframe. If you feel this is for you please ask us for details.

### Distance Learning Option

All courses are available to study through, fully tutor supported, distance/on-line learning. Distance learning courses may be linked to short intensive, attendance training courses to meet the requirements of individual learners. Students learn at their own pace and receive personal tutorials, assignments and supervision. Please call us to arrange for an informal discussion.
